2)

The causes for the slow progress in the Malnad districts are probably

- (a) That labour is not available
- (b) The necessity for wells is not so keenly felt by the people in the Malnad as in the dry districts of Kolar Chitalong and Tumkur. It is submitted in this connection that unless the actual amount allotted to each Taluk, the no of wells to be provided in each year in the year of report are given in column and the no of wells completed during each quarter are furnished in columns 2, 3, 4, of the Statement it is not possible to ^{watch} ~~know~~ the progress made during each quarter as the amount spent or the estimated cost of works in progress will not ^{be} helpful to ~~watch~~ ^{gauge} progress. Since the payments for work done are usually made at the bag end of the year.

S.D. No. 6002-9817.2.16 to the Presd, of

R.S. Bd.

Reviews the several progress reports with
certain observations

Serial No.	From
66	The Pres of Dt AD Kolar N ^o 154 d 13.1.16
67	Do — Chitalong N ^o 354 d 22.1.16
68	Do — Shimoga N ^o 137 d 28.1.16
69	Do — Tumkur N ^o 428 d 29.2.16
70	Do — Mysore 539 d 1.3.16
71	Do — Kolar 421 d 4.3.16
72	Do — Hassan 350 d 18.3.16
73	Do — Bangalore 652 d 15.4.16
74	Forward Statements showing the progress of drinking water wells during the quarter which ended on the 31 st December 1915.

8) The progress reports for the quarter which ended on 30th September 1915 were reviewed in G.O. N^o 6002-9 dated 17th Feb 1916. LB

A comparison of these returns with those for the previous quarter shows that there was no progress ~~at~~ during the quarter in the districts of Kolar, Shimoga and Chitalong while no progress has been done in the Hassan dt ever since the scheme for the rural water supply was sanctioned. Even in the case of Bangalore, Kolar & Tumkur the progress effected can not be considered satisfactory in view of the large amounts placed at their disposal and the large no. of works already undertaken.

Note

3

I beg to submit for
information the
Report of the Committee
appointed by the Bombay
Govt on well-being and
the Resolutions of the
Bombay Govt thereon

This I got as a loan from
the Effie Lyndhurst Branch.

2) I would suggest, if it has not already been done, that

about 12 copies of the Report
and Resolutions may be
obtained & distributed
to the following persons

(c) The Chief Engineer PW 2
13000000

(6). Director of Agriculture

(C) Limited by mes

(d) Director of Mails & Shipping

(c) Director of Marketing of Cambridge

Serial
No.

35 3). After this is done

the question will arise
as to whether action
similar to that taken
by the Bombay Govt
should not be taken here

Dr. Smeth, note on
underground water - Dept
in Mysore. W.B. part taken
in 1911 & some work
was also done and
reported in 1913. No further
progress appears to have been made.

35 4). That some action is
necessary will be clear
from the following considerations

B.V. IV & I

the Dept are
responsible for
these items

MT

At present 2 lakhs are
allotted every year by Govt
for well sinking for drinking
water - supply

Further, loans are granted
by Govt for sinking
irrigation wells

Serial
No.

Wherever rock is
met with - and such
cases are numerous

the well sinking tool
not make much progress

so the person sinking
the well is not well
equipped with

machines boring through

rock.

In Bombay Mr. Musto's
machine is said to
bore equally well
through rock & ordinary
soil.

5) It may not be
necessary to appoint
a committee as in
Bombay. The subject
may be dealt with here
as an O & S subject

Serial
No.

in the P W D,
the helpers being
the head of Dept
noted in para 2 above,
the Supt Engineer in
charge of water supply
& the Executive Engineer
in charge of water supply
Dinner

6) I may further note

that even where wells
 have been sunk at
 much expense, the
 water has run dry.

& That I have seen
 many such wells.

It is therefore necessary
 to have the District
 carefully investigated

Serial No.	Form
36	The President Dt Bd Tumkur Dt
15	N ^o 538 dated 8 th May 1916.
	States that a programme of wells has been prepared and that the progress reports received from Talukhs are reviewed and explains that the causes for the slow progress are
	(a) Difficulty of recovering Contribution from ryots
	(b) Paucity of qualified Contractors
76	(c) Inadequacy of Supervision Establishment
38	From the Presdt Dt Bd Kolar N ^o 2505 & 6.6.16
	Reports that better progress can be shown if the Dy Commr is allowed a greater latitude for waiving the Contributions payable by the ryots & entertaining a work Inspector for each Taluk for a period of three years
	These reports are with reference to para 3 of G.O. N ^o 7855-63/LB 12-15-32 dated 22.4.16
	The remedies suggested are
	(a) Greater latitude for Dy Commr to waive Contribution
	(b) The appointment of adequate Supervising Staff
	The real causes for the slow progress appear to be (a) the difficulty of tapping water.
	(b) The want of good boring apparatus & (c) the paucity of qualified work men & (d) Inadequacy of trained Staff.

Office of the President,
District Board, Tumkur District,

(37)

Dated, 8th May 1916.

From

K.R. Srinivasiengar, Esq., M.A.,
Deputy Commissioner-President,

L.B. 12-15-36 75

District Board, Tumkur District.

To

V.R. Thyagaraja Iyer, Esq., M.A.,
Secretary to the Government of His Highness the
Maharaja of Mysore, Revenue Department, Bangalore

Sir,

With reference to para 3 of Government Order No. 7855-63/
L.B.12-15 dated 22nd April 1916 calling for a report as to whether
any difficulties exist in the matter of adopting certain measures
mentioned in paragraphs 4 and 9 of Government order No. 5249-59/
San.38-12-38 dated the 6th January 1915 re: the sinking of draw
wells in the State and as to what arrangements are considered --
necessary for securing better progress in future, I have the honor
to state that as required by para 4 of Government order dated 6th
January 1915 a complete list of drinking water wells required in
each Taluk has been prepared and a programme drawn up of works to
be undertaken during the current year and the progress reports of
the works sanctioned are obtained from the Taluks and checked and
reviewed every month in this Office.

2. The chief reasons which have contributed to the poor --
progress in the execution of these works till now are: - (1)
Difficulty in the recovery of contribution from the ryots (2)
Paucity of qualified and competent men to take up the works on
contract where the villagers are unable to execute the work them-
selves and (3) Inadequacy of establishment for the preparation of
estimates and the supervision of works.

3. According to para 5 of Government order dated 6-1-1915 no
work can be sanctioned unless the villagers contribute half the

cost

cost except in the case of well works for poor and backward classes in respect of whom the condition is allowed to be relaxed at the discretion of the Deputy Commissioner. The villagers do not generally come forward readily to pay their contribution towards the cost of the work and in many cases where they promise to contribute a ~~moiety~~ moiety in the shape of labour, they put off the work indefinitely and oftentimes fail to do, their portion of the work fully. Consequently much time is lost before the work can be sanctioned and worked out.

4. As regards the agency for the execution of works, it has been found that in spite of the efforts of the local officers to induce the villagers themselves to take up the work, they are generally either unwilling or unable to do because most of the work has got to ~~be~~ be done by Professional Stone -waddars who have to be imported from outside, oftentimes on payment of advance. There is also a great paucity of qualified and competent contractors locally to take up these small works which do not yield much profit and consequently the progress of the works is considerably retarded.

5. Next with regards to the supervising agency, Government have in their order No. 9190-201/189-14-26 dated 21st May 1915 sanctioned the entertainment of a Work Inspector for each Taluk or groups of -- Taluks in which works of the aggregate cost of not less than Rs.10,000/ have been sanctioned. In the first place, Rs. 10,000/- is too large a limit for a single subordinate to exercise effective supervision over the works particularly, if they are scattered over more than one Taluk. Secondly, it has been found difficult to get qualified men to take up the appointment of Work Inspectors temporarily for 6 months or a year, though applicants were invited by notices published in the Gazette. Even the men who joined the appointment ~~treated~~ from necessity consider it as only a temporary stepping stone and resigned it in a short time on their securing permanent places elsewhere. In consequence, in some of the Taluks where a sufficiently large number of works have been -- sanctioned to entitle them to the services of a separate Work Inspector they have to get on without such a hand owing to the difficulty of -- getting a qualified person. Thirdly, the Government order requires

~~that~~

that

OFFICE OF THE PRESIDENT, DISTRICT & MUNICIPAL BOARDS,
KOLAR DISTRICT,

Dated 6th June 1916.

L.B. 12-15-38 76

FROM

P. F. BOWRING, ESQUIRE., J. P.,
President, District & Municipal Boards,
Kolar District.

TO

V. R. Thyagaraja Iyer, Esquire, M.A.
Secretary to the Government of
His Highness the Maharaja of Mysore,
Revenue Department,
Bangalore.

SIR,

Adverting to Government order No 7855-63/
L.B. 12-15 dated 22nd April 1916, reviewing
the progress made under the Rural water
Supply scheme, for the quarter ending 31st
December 1915, I have the honor to state that
the chief difficulty in the way of a rapid
sinking of wells in all villages where they
are needed is due to the failure of the ryots
to do their share of work in time. They are
however being persuaded to do it and in
only exceptional cases are their contributions
dispensed with. The villagers nevertheless find

Scheme.

some difficulty in paying cash contributions or for doing the stone work. In villages where the population is not large, the rule will work as a hardship and in such cases it is necessary to relax the rule, and require them to do only the customary earthwork. If a larger latitude is given to Deputy Commissioners to relax the rules in such cases, I think better progress can be shown.

2. Some agency to supervise these work during the course of execution is necessary and I submit for the information of Government, a copy of my report to the Revenue Commissioners in the matter.

I have the honor to be,
Sir,
your most obedient servant,

For Deputy Commissioner and
President,

District and Municipal Board,
Kolar Kolar District.

Enc. to L.B. 12-15-38

Report no. 2049 dated 16th March 1916, from the Deputy Commissioner, Kolar District, to the Revenue Commissioner in Mysore, Bangalore.

Adverting to your docket no. 6682-8 dated 29th November 1915, regarding the work done by Work Inspectors appointed under the Village Improvement and the Rural water Supply Schemes, I have the honor to state that no Work Inspectors were appointed in any of the Taluks of this District during the last half year, the sanctioned works being looked after by the existing Sanitary Inspectors. The number of works that are undertaken under these schemes is increasing and it may be necessary to appoint Work Inspectors in a few Taluks of the District.

2. In this connection I beg to state that I am doubtful if any use can be made of the services of these Work Inspectors

under the conditions laid down in the orders -- regarding their appointment. Government have directed that in a Taluk or group of Taluks where works costing Rs. 10,000/- have been sanctioned, a Work Inspector may be appointed for a period not exceeding six months at a time. By this I understand that these officials can be entertained only after the works to the limit of Rs. 10,000/- have been actually sanctioned. In fact, their services are required as much for getting up the estimates as for checking the measurements after the works have been put on hand. Again, their services will have to be dispensed with after the prescribed period of six months, whether the work have been completed or not. It is very difficult to get qualified and trained men for the short period of six months and it has not been possible to appoint any, even though there was a necessity for it in one or two Taluks.

3. As the Government have directed

the continuance of the Village Improvement operations for a period of 3 years, the appointment of these Work Inspectors may also be fixed for the like term. To appoint these men to a group of Taluks is not likely to work satisfactorily.

I am of opinion that better progress can be shown if one Sr. Inspector is given to each Taluk when necessary. The additional cost will not be much and I have no doubt the work will benefit.

(Sd) P. F. Bowring

Water wells scheme and,

What arrangements are necessary for securing better progress.

2) Read the following Communications from the Dy Commrs of Tumkur & Kolar reporting that the causes for the ~~inadequate~~ slow progress are

- (a) P scarcity of qualified contractors
- (b) Inadequacy of supervision Establishment
- (c) Difficulty of recovering the

Contribution from ryots and that greater latitude may be allowed for waiving Contribution from ryots.
